

CIRRUS
SONS OF EDEN
HIGH EDEN VALLEY
SINGLE VINEYARD
RIESLING 2015

The High Eden sub-region of Eden Valley is a small and unique region designated by its high altitude, however it is also defined by the schist soils and rocky outcrops, vast exposure and undulating hillside aspects, enhancing its suitability for growing Riesling. The skies over High Eden are typified by 'Cirrus' cloud formations for most of the growing and harvest seasons, making for a picturesque backdrop to the vineyards and a perfect name for this wine. The Cirrus Riesling is made from the very best Single Vineyard wine of High Eden and made in only exemplary years.

2015 CIRRUS High Eden Valley Riesling

Wine Description

Youthful pale green colour, vibrant white currents and fresh lemon juice aromas. The palate is very refined, with great intensity and freshness, finishing with a flick of mineral texture. Released after 12 months of bottle maturation, this wine will mature for many years to come.

Winemaking

Hand harvested, the fruit was chilled to 6C and then 100% whole bunch pressed. Only the finest free run was taken, up to 450 litres / tonne. Naturally settled for several weeks with only the clearest juice selected for fermentation. Fermented at a cool temperature between 10-13C until completely sugar dry. Left for 3 months on yeast lees before being prepared for bottling.

Single Site Vineyard - The Petney Family Boehms Springs

Region: High Eden Valley

Altitude: 530m above sea level

Aspect: north-east facing

Soil: shallow sandy loam and schist over granite bedrock

Vine Age: 16 year old own roots

Row Orientation: north-south

Pruning: single wire spur pruned

Shallow, low fertility soils, together with challenging climatic conditions associated with the altitude contribute to low yields. The vineyard location and aspect maximise the morning sun and eliminate the harsh late afternoon heat, as well as protecting it from the prevailing and potentially damaging south westerly winds. This combination of unique site attributes consistently contributes to fine delicate flavours.

Harvest Date

6th March 2015

Yield

2.5 t/acre Boehms Springs Road Vineyard

Wine Details

Alcohol: 12.0%

pH: 2.91

Total Acidity: 6.8 g/l

Riesling 100%

Residual Sugar: <1.0g/L

Production: 1000 bottles
